

**Northern Harvest Sea Farms
Statement
December 18, 2019**

In the interest of maintaining consistency with respect to where industry information is placed, Northern Harvest Sea Farms is making information already published on the Canadian Food Inspection Agency website, and already discussed on the company's Facebook page on October 16th, available here on the Provincial industry website as well.

As previously posted, Northern Harvest's Harvey Hill East location was confirmed for ISA by the Canadian Food Inspection Agency through testing of Atlantic Salmon that took place last July. Detection happened in one cage; the cage was harvested; and no further detections were made from any other cage on the site.

The original post can be found at:

https://m.facebook.com/story.php?story_fbid=2514377008609465&id=206680222712500.

This is not a new disclosure. The site is empty and fallow. Posting this information on the NAIA.ca website in addition to other media platforms is in keeping with new public reporting regulations put in place by the Provincial Government.
