

May 14, 2021 at 2:18 PM NDT

COVID-19 related travel delays have caused disruptions of vital egg shipments to our Marystown facility. As a result, Grieg Seafood Newfoundland will enter the sea with 1,000,000 fish this year. Grieg Seafood Newfoundland's commitments for future years production remain unchanged, and we look forward to providing the markets with excellent products for years to come.

Perry Power
