

December 10, 2024

In June 2023, the Government of Canada, the Government of Newfoundland and Labrador, Miawpukek First Nation, Qalipu First Nation, and the Town of Burgeo signed a Memorandum of Understanding to collaborate on an assessment of the feasibility of creating a National Marine Conservation Area (NMCA) along the southwest coast of Newfoundland and Labrador.

The Newfoundland Aquaculture Industry Association, our salmon and trout farming member companies, and our service / supply member companies have serious concerns about the potential establishment of this NMCA as salmonid farming and other activities will be prohibited within the NMCA.

The area under assessment represents an important expansion area for the salmonid aquaculture sector in Newfoundland. Denying this expansion would have serious repercussions for sector growth and will negatively affect the economic development of communities on the south coast as well as the service / supply sector throughout the province, putting investment plans and livelihoods at risk.

In November NAIA asked our member companies to send letters to the provincial government to support industry's request for a boundary change for the proposed NMCA. NAIA and our Board of Directors would like to thank the following organizations which sent letters to the Premier on NL and select NL Ministers:
